

ARC 200

COMPACT, POWERFUL, SAFE INVERTER MMA.

PRELIMINARY INFORMATION

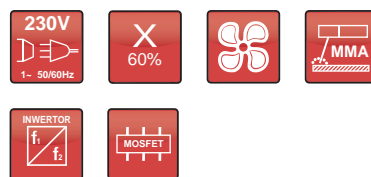

SPARTUS Master ARC200. Modern, lightweight stick welder. It is powered from single phase 230V source power.

The welding current is in the range between 20 to 200 amps.

DESCRIPTION

It has enough power for welding with electrodes diameter up to 4,0 mm. Easy-to-use welders function panel equipped with digital display allows to precise adjust of welding parameters.

Durable casing, operative carrying handle, comfortable shoulder strap make it an ideal solution for welding works in difficult terrain. High-end components and built-in overload control system – guarantee its trouble-free operation even in hard conditions.

EXAMPLES OF USE

- light industrial,
- farm,
- construction,
- portable repair,
- workshop.

FUNCTION PANEL

- 1. Digital meter
- 2. Overheat indicator
- 3. Power indicator
- 4. Welding current adjustment knob

TECHNICAL PARAMETERS

Input	~1 x 230V ±10% 50/60Hz
Welding Current [A]	20 – 200
Duty cycle [%]	60 (180A)
No-load voltage [V]	59
OTHER	
Current consumpiton [A]	27
Power factor (cosφ)	0,93
Efficiency η [%]	85
Insulation class	F
Protection class	IP21
Weight [kg]	6,4
Dimensions [mm]	350 x 145 x 275

STANDARD EQUIPMENT

- 3 meter electrode holder
- 3 meter work clamp
- User's manual
